

BIOMETRIX CPT

Custom Procedure Tray for Ophthalmics

Biometrix Ophthalmic custom procedure tray is composed of quality single-use surgical devices, customized to answer medical staff requirements for specific ophthalmic procedures, as well as ensure quick and effective treatment in a completely sterile environment.

Biometrix Ophthalmic CPT provides a reliable and efficient procedure tray, ensuring high performance and significantly reducing overall surgical procedural expenses.

- Manage emergency cases quickly and confidently
- Reduce cost and setup time of overall procedures
- Simplify and quicken stocking and restocking
- Minimize cross contamination with sterile single-use products
- Save space and minimize waste with compact packaging

PRODUCT BENEFITS

Biometrix offers an extensive choice of high quality components, allowing you to create an optimized tray and to save your organization time and money.

You are just a few steps away from your individual user-friendly Biometrix Ophthalmic CPT

- Please select the components of your choice from the product range:
- Review the (non-sterile) sample tray, provided for your convenience.
- Discuss proposal and receive contract offer.
